CONVEGNO NAZIONALE La gestione dell'infezione da HCV nel consumatore di sostanze: where is the gap?

Chair Felice Alfonso Nava

Venezia Mestre 25 giugno 2019

CONVEGNO NAZIONALE

La gestione dell'infezione da HCV nel consumatore di sostanze: where is the gap?

Considerazioni Conclusive

Felice A. Nava

Clonclusion Remarks

- HCV treatment in drug users is effective and safe
- Point of care as effective and costeffectiveness model of treatment
- Nurse management as best practice
- The point of care as model and paradigma of clinical network and team-work

The next step is our wish

- To work together
- To share clinical outcomes
- To run in the same place
- To be a "holistic" specialists
